

Observer's Role

Simulation of Collaboratively Mining Visualized Data

Observer's Role

Observer will collect available evidence on any of the following:

Deepen Understanding of the Process

What did you learn about your colleagues as critical thinkers and co-collaborators?

Looking for evidence of Collaborative Thinking

What did you learn about collaboration around visualized data?

Listening to Colleagues' Thinking

How did the novelty or complexity of this task impact the quality of thinking?

Reflecting on One's Own Thinking

What insights did you hear about assisting schools or districts in conducting courageous conversations around achievement gap data?

What insights did you hear about assisting schools and districts in considerations for increasing instructional practices in order to close achievement gaps for all students?

Other Notes:
